1. Executive Summary

Current Plan Year Costs (Fiscal Year 2015)

This report presents the results of our actuarial valuation of the City of Rockville Retirement Plan as of July 1, 2014, including the contribution required. Asset and census information was gathered as of July 1, 2013 and projected to July 1, 2014.

The projected Annual Required Contribution (ARC) for the City of Rockville Retirement Plan for fiscal year 2015 (July 1, 2014 through June 30, 2015) is \$4,024,603. Due to the shift in the valuation determination date, an additional contribution of \$1,006,151 is required for the period from April 1, 2014 to June 30, 2014. The ARC is in addition to employee contributions and represents a minimum deposit level equaling the employer share of the normal cost plus the amortization of the unfunded liabilities as of June 30, 2015 over an eighteen and one quarter year period.

Deposit Information for FY2015

A summary of the results of the actuarial valuation is as follows:

Total normal cost plus expense	\$ 2,594,635
Employee normal cost (expected employee contributions)	773,369
Employer normal cost	1,821,267
Total normal cost as a percentage of total member compensation	7.00%
ARC	\$4,024,603
ARC as a percentage of total member compensation	10.86%

Analysis

The ARC for the City of Rockville Defined Benefit Pension Plan decreased slightly in the 2014 plan year (fiscal 2015) to approximately \$4.0 million. The FY2015 ARC is \$0.2 million lower than the FY14 ARC due in part to lower than expected pay increases. The actuarial value of assets increased from last year due to the recognition of deferred gains from 2010 and 2011. (See page 10 for a full development of the actuarial value of assets.) Overall, the funded status of the plan is expected to increase from 76.1% on July 1, 2013 to 80.7% on July 1, 2014.

Similar to plan reports in previous years, we have included a projection of the annual required contributions of the plan; similar to last year, the table has been expanded to show 5 projection years. This may be found beginning on page 6.

Changes from Prior Valuation

There were no changes in assumptions or plan provisions since the last valuation; however, the plan valuation date was moved from April 1 to July 1 so that the plan year and fiscal year coincide.

Funding Method

The Entry-Age Normal Cost Method was used to determine liabilities and costs related to retirement, termination, disability and pre-retirement death benefits. The normal cost is calculated as a level annual funding cost from entry age to the expected decrement date.

The entry age normal cost method is used for this valuation. This method estimates the total cost of all projected plan benefits based on the assumptions shown in this report and the participant data supplied to us.

Costs are spread evenly from a member's date of hire to assumed retirement age. This annual cost is spread as a level percentage of compensation. The sum of each member's annual cost is the normal cost of the plan.

The value of calculated costs for past years is the actuarial accrued liability (AAL). Each year the unfunded actuarial liability (UAAL) is the AAL less the actuarial value of assets. A value less than zero represents a surplus.

The annual required contribution is equal to the normal cost of the plan, plus amortization of the plan's UAAL. Effective with the prior valuation the amortization period was fixed at 20 years, with separate amortization of increases or decreases in the UAAL over new 20-year periods. Due to the plan year being changed to coincide with the fiscal year, the amortization was modified to avoid quarter year remaining amortization periods.

Supplemental Employee Contributions

If the City contribution to the defined benefit plan on behalf of Administrative, Union and Police employees exceeds 6.5% of the earnings of those employees, the City may, at its discretion, impose a "Supplemental Employee Contribution" for the following year.

The amount of the Supplemental Employee Contributions is limited to no more than 50% of the excess of the city contribution over 6.5% of the earnings of the Administrative, Union, and Police employees. See page 7 for the calculation of the Supplemental Employee Contribution.

2. Funding Calculations

Deposit Information

Normal Cost		
	Fiscal 2015 July 1, 2014	Fiscal 2014 April 1, 2013
Total normal cost	\$ 2,594,635	\$ 2,418,913
Employee normal cost (expected contributions from employees not yet eligible for normal retirement)	773,369	779,595
Employer normal cost	1,821,267	1,639,318
Total member compensation	37,048,315	36,707,187
Total normal cost as a percentage of member compensation	7.00%	6.59%
Annual Required Contributions		
Employer normal cost	1,821,267	\$ 1,639,318
Amortization amount	1,922,550	2,279,229
Valuation interest to the end of the plan year	280,786	293,891
Annual Required Contribution (ARC)	4,024,603	\$ 4,212,438
ARC as percentage of total member compensation	10.86%	11.48%

The ARC represents the employer contribution to the plan and is in addition to employee contributions. The member compensation includes expected salary growth during the fiscal year.

Development of Normal Cost

The normal cost is the portion of cost assigned to each year. Under the entry age normal cost method used in this valuation, each member's annual cost is calculated as described in the Assumptions and Methods section. The sum of the annual costs for all members plus an estimate of plan expenses to be paid from the fund is the total normal cost for each year.

a) Normal cost for Administrative Personnel and Union	\$ 1,649,674
b) Normal cost for Police	637,128
c) Estimated expenses	<u>307,833</u>
d) Total normal cost (a+b+c)	\$ 2,594,635

Unfunded Actuarial Accrued Liability

a) Unfunded actuarial liability (as of 7/01/2013)	\$ 22,279,608
b) Changes made during the plan year	0
c) Employer normal cost (as of 7/01/2013)	1,639,318
d) Interest on the above items	1,793,919
e) Total (a+b+c+d)	25,712,845
f) Employer contributions	4,212,438
g) Interest on employer contribution	157,966
h) Total (f+g)	4,370,404
i) Expected unfunded actuarial accrued liability (as of 7/01/2014) (e-h)	21,342,441
j) Actuarial accrued liability	97,275,430
k) Actuarial value of assets projected to 7/01/2014	78,490,190
l) Actual unfunded actuarial accrued liability (as of 7/01/2014)	18,785,240
m) Actuarial (gain) or loss (actual less expected unfunded actuarial accrued liability) (l-i)	\$ (2,557,201)

Schedule of Amortization Bases

The City's cost method allocates a portion of plan funding to be amortized in equal annual installments, in addition to the normal cost. The period over which the bases can be amortized is described in the laws and/or regulations.

Date Created	Reason	Remaining Period (Years)	Current Unfunded Balance	Minimum Annual Amortization
7/01/2014	Unfunded Actuarial Accrued Liability	18.25	\$ 18,785,240	\$ 1,922,550

Benefits Index Option

As of June 30, 2013, there was a group of 79 retirees and beneficiaries under the Benefits Index Option with Principal. The City of Rockville is required to maintain a minimum level of assets with Principal; otherwise these employees will be annuitized at current market costs. The benefits due to these retirees are paid from the Principal accounts.

If the Benefit Index Option retirees had been converted to annuities on June 30, 2013, the liability would increase from \$8.61 million to \$11.74 million. The increase is mainly due to the low interest rate environment in the annuity market.

Principal requires that the funds exceed the annuitized value of the retiree benefits. They determine the amount needed to cover the Benefits Index retirees through a two step formula. First, they increase the annuitized liability by 10% as part of a threshold test. Next they take into consideration the volatility of the assets classes and come up with a weighted volatility factor that is used to increase the amount of funds needed to cover the retiree payments.

On June 30, 2013, the funds with Principal were invested in the following manner and with the following assumed volatility factors:

<u>Principal Fund Name</u>	<u>Balance</u>	<u>Volatility Factor</u>
Money Market	\$19,498	0.95
Inflation Protection	\$6,768,289	0.95
Bond and Mtg	\$15,182,550	0.95
Large Cap S&P 500 Index	\$13,735,744	0.75
Diversified Intl	\$17,707,134	0.60
Total	\$53,413,215	0.7825

The weighted average volatility factor is divided into the increased annuitized liability to derive the Benefit Index as of a particular date. As of June 30, 2013, the Benefits Index equaled approximately \$16.5 million (i.e., \$11.74 x 1.1 / 0.7825). With over \$53 million invested with Principal, the Benefit Index is easily covered.

It is important to note that the volatility factors have a significant impact on the high level of assets required to be held by Principal. If all of the Principal funds were invested in the Bond fund, or the inflation Protection fund, which have the least volatility, then the Benefit Index would decrease from \$16.5 million required to \$13.6 million required.

3. Funding Projections

Annual Required Contribution Projections

As part of the actuarial valuation, we have projected contribution estimates for 5 years into the future based on the current year results. These estimates utilize the same assumptions and census data as of 7/01/2013. Additionally, asset returns are assumed to be 7.50% for all future years.

Any deviation in assumption, census demographics, or asset performance would impact these approximations.

	FY 2015 July 1, 2014	FY 2016 (\$ in millions)	FY 2017 (\$ in millions)	FY 2018 (\$ in millions)	FY 2019 (\$ in millions)	FY 2020 (\$ in millions)
Interest Rate	7.50%	7.50%	7.50%	7.50%	7.50%	7.50%
Return on Market Assets		7.50%	7.50%	7.50%	7.50%	7.50%
Actuarial Accrued Liability	\$97,275,430	101.61	106.07	110.65	115.36	120.20
Actuarial Value of Assets	78,490,190	85.68	91.51	97.90	104.45	111.20
Unfunded Liability	18,785,240	15.93	14.56	12.75	10.91	9.00
Funded Ratio	80.7%	84.3%	86.3%	88.5%	90.5%	92.5%
Amortization of Unfunded	\$1,922,550	1.69	1.59	1.44	1.28	1.11
Employer Normal Cost	1,821,267	1.93	2.05	2.17	2.30	2.44
Interest	280,786	0.27	0.27	0.27	0.27	0.27
ARC	\$4,024,603	3.89	3.91	3.89	3.86	3.82

Supplemental Employee Contribution Projections

As documented in the provisions of the plan, the City of Rockville maintains the right to enforce a Supplemental Employee Contribution as it pertains to the defined benefit portion of the pension plan. Specifically, as of any July 1, if the City contribution to the Defined Benefit Option of the plan made on behalf of employees exceeds 6.50% of the earnings of the employees, then the City reserves the right to impose a Supplemental Employee Contribution for the following fiscal year.

This Supplemental Employee Contribution can be no more than 50% of the excess of the City contribution over 6.50% of earnings for employees. Such a contribution would be treated as a contribution to the Defined Benefit Option. The following table represents the calculation of the current Supplement Employee Contribution plus 5 projection years.

Administrative and Union Employees

	FY 2015 July 1, 2014	FY 2016 (\$ in millions)	FY 2017 (\$ in millions)	FY 2018 (\$ in millions)	FY 2019 (\$ in millions)	FY 2020 (\$ in millions)
Admin compensation	\$27,412,493	29.07	30.83	32.69	34.67	36.77
Union compensation	4,746,269	5.03	5.34	5.66	6.00	6.37
Total subgroup compensation	32,158,762	34.10	36.17	38.36	40.68	43.14
Total ARC	\$4,024,603	3.89	3.91	3.89	3.86	3.82
Admin and Union ARC	3,408,999	3.30	3.31	3.29	3.27	3.24
ARC as a % of compensation	10.60%	9.68%	9.15%	8.58%	8.04%	7.51%
Excess over 6.5%	4.10%	3.18%	2.65%	2.08%	1.54%	1.01%

ARC as a % of compensation	12.59%	11.38%	10.92%	10.24%	9.51%	8.85%
Excess over 6.5%	6.09%	4.88%	4.42%	3.74%	3.01%	2.35%
50% of excess	3.05%	2.44%	2.21%	1.87%	1.51%	1.18%
Maximum Supplemental Employee Contribution	\$149,131	0.13	0.12	0.11	0.09	0.08

Employer Thrift Plan Matching Contributions Projections

For both Union and Administrative Personnel enrolled in the Thrift Plan, employees can contribute 1%, 2%, 3%, 4%, or 5% of earnings to the Thrift Plan. For each \$1.00 contributed by a member, the City of Rockville contributes \$0.50 to the plan.

While this valuation only reflects the Defined Benefit Plan portion of liabilities, we are able to estimate the cash outlay of the City's matching contribution to the Thrift Plan based on current census data, pay information, salary scale assumptions, and employee contribution percentages.

	Fiscal 2015 July 1, 2014	Fiscal 2016 July 1, 2015	Fiscal 2017 July 1, 2016	Fiscal 2018 July 1, 2017	Fiscal 2019 July 1, 2018
Total Thrift Plan Pay Only	\$29,300,000	\$31,070,000	\$32,950,000	\$34,940,000	\$37,050,000
Employee Contribution to Thrift Plan	1,326,000	1,414,000	1,508,000	1,608,000	1,714,000
City Matching Contribution to Thrift Plan	663,000	707,000	754,000	804,000	857,000

Allocation of 2014 Plan Year Contribution (Fiscal 2015)

	Admin and Union	Police	Total
2014 Employer Normal Cost	\$1,542,686	\$278,581	\$1,821,267
Allocation percentage	84.70%	15.30%	100.00%
Allocated Annual Required Contribution	\$3,408,999	\$615,604	\$4,024,603
Total annual member compensation	\$32,158,762	\$4,889,551	\$37,048,313
Allocated ARC as a percentage of compensation	10.60%	12.59%	10.86%
Discretionary Supplemental Contribution for next year	\$659,255	\$149,131	\$808,386

4. Asset Information

Plan Assets are measured at the beginning of each plan year. Both the projected market value and actuarial value for the 2013 plan year are shown below. Actuarial value of assets is used for all funding calculations. The derivation of the Actuarial Value of assets is on the following page and identifies the reason for any difference between Market Value and Actuarial Value in the Methods Selected by Plan Sponsor section of Assumptions and Methods.

The actuarial value of plan assets as of June 30, 2013 is **\$70,791,881**. The market value of assets as of June 30, 2013 is \$72,493,307. The following table shows the amount of funds invested in each account as of June 30, 2013:

City of Rockville Market Value of Assets as of June 30, 2013	
Accounts	Balance
<u>Principal</u>	
Bond and Mortgage	\$ 15,182,550
Diversified International	\$ 17,707,134
LargeCap S&P 500 Index	\$ 13,735,744
Money Market	\$ 19,498
Inflation Protection	\$ 6,768,289
Total – Principal	\$ 53,413,215
<u>Prudential</u>	
Real Estate	\$ 10,039,797
Manning & Napier	\$ 8,516,467
Short Term	\$ 523,828
Total – Prudential	\$ 19,080,092
Total – All Accounts	\$ 72,493,307

The actuarial value of assets smoothes investment gains and losses over five years at 20 percent per year. The asset valuation method changed three years ago and is not fully phased in. For this purpose, a gain or loss is the difference between the actual return and the expected long-term investment return (currently 7.50 percent). Any future gains or losses are also recognized over five years. After the method is in place in its fifth year, the asset value recognizes 20 percent of the current year's gain or loss and 20 percent of each of the prior four years of gains and losses. By combining five years of gains and losses, the asset fluctuations are dampened from experiencing drastic upward and downward swings in value. 80% of the 2013 losses, 60% of the 2012 gains, 40% of the 2011 gains, and 20% of 2010 gains are deferred to future years. Due to the change in the plan year, an additional quarter year of gains/losses were recognized this year. A full development of this value can be found on the following page.

Development of Actuarial Value of Assets (reflecting 15 months for the change in Plan Year)

(1)	Actuarial value of assets as of 4/01/12	\$ 62,039,361

Plan Provisions

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan effective through July 1, 2013.

Plan Eligibility		
	Defined Benefit Option	Thrift Plan Option
Administrative Personnel	Hired prior to 4/15/1986 and elected not to transfer to Thrift Plan	Hired prior to 4/15/1986 and elected to transfer from Defined Benefit Option or hired on or after 4/15/1986
Union Employees	Hired prior to 12/02/1986 and elected not to transfer to Thrift Plan	Hired prior to 12/02/1986 and elected to transfer from Defined Benefit Option or hired on or after 12/02/1986
Police Employees	All Police employees are eligible for the Defined Benefit Option only	N/A

Normal Retirement Benefit		
Form	All employees will receive a monthly annuity guaranteed for ten years and life thereafter. Optional forms may be elected in advance of retirement	
Age	Defined Benefit Option	Thrift Plan Option
Administrative Personnel and Union Employees	Attained at age 60	<u>Hired prior to July 1, 2011:</u> Attained at age 60 <u>Hired on or after July 1, 2011:</u> Attained age 65 and 10 years of credited service
Police	Earlier of attained age 60 or 25 years of service	N/A

Normal Retirement Benefit		
Amount (accrued benefit)	Defined Benefit Option	Thrift Plan Option
Union Employees	1.8% of average earnings times credited service	<p>The sum of (i), (ii), and (iii)</p> <ul style="list-style-type: none"> i. 1.8% of average earnings times credited service prior to 1/01/1987 ii. 1.0% of average earnings times credited service after 12/31/1986 iii. Actuarial equivalent of a lump sum payment of members Thrift Plan Option vested account balance. Member may elect a cash distribution or combination of cash and annuity
Administrative Personnel	<p>The sum of (i) and (ii)</p> <ul style="list-style-type: none"> i. 1.8% of average earnings times credited service prior to 4/01/1996 ii. 2.0% of average earnings times credited service on or after 4/01/1996 	<p>The sum of (i), (ii), and (iii)</p> <ul style="list-style-type: none"> i. 1.8% of average earnings times credited service prior to 4/01/1986 ii. 1.0% of average earnings times credited service after 4/01/1986 and prior to 4/01/1996 iii. 1.2% of average earnings times credited service on or after 4/01/1996 iv. Actuarial equivalent of a lump sum payment of members Thrift Plan Option vested account balance. Member may elect a cash distribution or combination of cash and annuity

Normal Retirement Benefit		
Amount (accrued benefit)	Defined Benefit Option	Thrift Plan Option
Police Employees	<p>The lesser of (i) and (ii):</p> <ul style="list-style-type: none"> i. 2.0% of average earnings times credited service up to 4/01/2004, plus 2.25% of average earnings times credited service on or after 4/01/2004 ii. 67.5% of average earnings 	

Early Retirement Benefit	
Age	<u>Hired prior to July 1, 2011:</u> Attained age 50 <u>Hired on or after July 1, 2011:</u> Attained age 58
Service	Ten years of credited service
Form	Same as normal retirement benefit
Amount	Accrued benefit on early retirement date reduced to reflect that payments begin prior to normal retirement date
Reduction Factors:	
Administrative Personnel and Union Employees	<u>Hired prior to July 1, 2011:</u> 1/4 of 1% for each month the benefit commences prior to normal retirement date. <u>Hired on or after July 1, 2011:</u> 3/8 of 1% for each month the benefit commences prior to normal retirement date.
Police	6/10 of 1% for each month during the first sixty months and 3/10 of 1% for each month during the next sixty months the benefit commences prior to normal retirement date

Late Retirement Benefit	
Age	No maximum age
Form	Same as normal retirement benefit
Amount	Accrued benefit on late retirement date

Deferred Vested Benefit	
Eligibility	Termination of employment after ten years of credited service
Form	Same as normal retirement benefit with income deferred until normal retirement date
Amount	Accrued benefit as date of termination In lieu of receiving a retirement benefit, an employee may elect to receive a lump sum payment equal to that which the employee would have received under the Termination Benefit below

Termination Benefit																	
	Defined Benefit Option	Thrift Plan Option															
Eligibility	Termination of employment prior to early or normal retirement date and before completing ten years of credited service	Termination of employment prior to early or normal retirement date and before completing seven years of credited service															
Form	Lump sum payment	Lump sum payment															
Amount	<div>The sum of (i) and (ii):<div><div>i. Employee contributions plus interest</div><div>ii. A portion of the City's contributions plus credited interest according to the following schedule:<table><tr><th>Years of Credited Service</th><th>Percent of City Share Earned</th></tr><tr><td>Less than 5</td><td>0%</td></tr><tr><td>5</td><td>50%</td></tr><tr><td>6</td><td>60%</td></tr><tr><td>7</td><td>70%</td></tr><tr><td>8</td><td>80%</td></tr><tr><td>9</td><td>90%</td></tr><tr><td>10 and over</td><td>100%</td></tr></table></div></div><div>City contributions are deemed to be 150% of the employee's contributions plus interest</div></div> <div>Vested account balance</div>	Years of Credited Service	Percent of City Share Earned	Less than 5	0%	5	50%	6	60%	7	70%	8	80%	9	90%	10 and over	100%
Years of Credited Service	Percent of City Share Earned																
Less than 5	0%																
5	50%																
6	60%																
7	70%																
8	80%																
9	90%																
10 and over	100%																

Survivor Annuity Death Benefit	
Eligibility	Qualified married participant with ten years of credited service
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day

Lump Sum Death Benefit		
Eligibility	Not eligible for the Survivor Annuity Death Benefit described above	
Form	Lump sum payment to beneficiary	
Amount	Defined Benefit Option	Thrift Plan Option
	Employee contributions plus credited interest In lieu of any other death benefit, the deceased employees' beneficiary may elect to receive a lump sum payment equal to that which the employee would have received under the Termination Benefit described above	Vested account balance

Contributions		
	Defined Benefit Option	Thrift Plan Option
Union	4.2% of earnings plus 1/2 the excess (if any) of the City's contribution over 6.5% of earnings	1%, 2%, 3%, 4%, or 5% of earnings
Administrative Personnel	5.2% of earnings plus 1/2 the excess (if any) of the City's contribution over 6.5% of earnings	1.0% of earnings will be contributed to the Defined Benefit portion 1%, 2%, 3%, 4%, or 5% of earnings will be contributed to the Thrift Plan portion
Police	8.5% of earnings	N/A

Contributions		
	Defined Benefit Option	Thrift Plan Option
City	Remaining cost of plan	50 cents for each \$1.00 contributed by member. (Applies to Administrative Personnel and Union employees only.)
Interest on Employee Contributions	6.0% per year	In accordance with the terms of the investment contract

Vested Balance and Optional Forms		
	Defined Benefit Option	Thrift Plan Option
Vested Account Balance	The sum of (i) and (ii):	
	i. Employee contributions plus credited interest	
	ii. The account balance attributable to City contributions with credited interest in accordance with the following:	
	<u>Years of Credited Service</u>	<u>Percent of City Share Earned</u>
	Less than 5	0%
	5	50%
	6	60%
	7	70%
Optional Forms of Benefit Payments	The optional forms of benefit payments are:	
	• Monthly annuity payable for life, 10 years certain and life	
	• Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 75, or 100	
	• Single sum payment equal to the present value of the vested accrued retirement benefit	

Cost of Living adjustment There is no cost-of-living increase for the July 1, 2013 valuation. Historically, there have been cost-of-living increases given to current retirees. There have been no cost-of-living increases since January 1, 2008.

Definitions

Credited Service

For benefit accrual, an employee will receive Credited Service for each year of continuous service and a fraction of a year of service to the nearest full month, from the date he first enters the plan to the date he terminates or retires, whichever is earlier; provided he made the required contributions to the plan. An employee will not receive credited service during any period for which he is eligible to participate if he does not contribute to the plan.

Earnings

Salary or wage at an employee's basic rate of pay but excluding overtime payments, commissions, bonuses, and any other additional compensation but including longevity pay. After December 31, 2001, 401(a)(17) limits apply. No retroactive \$200,000 limit will apply for service on or after January 1, 2002.

Final Average Earnings

Administrative Personnel and Union Employees

Average annual earnings during the 36 consecutive months of the last 120 months of City employment (or, if shorter, the employee's actual period of employment) which produce the highest average.

Police

Average annual earnings during the final 60 months (or, if shorter, the employee's actual period of employment) of City employment.

Assumptions and Methods

There have been no changes in assumptions or plan provisions since the last valuation report, which was performed as of April 1, 2012 and projected to April 1, 2013 other than to reflect changes in maximum benefit limits under Intern Revenue Code (IRC) Section 415 and in maximum compensation limits under IRC Section 401.

Interest	7.50%
Mortality	RP-2000 Combined Mortality Table, male and female, projected to 2005 with scale AA. The table includes a margin for future improvement in life expectancy.
Asset Method	Gains and losses are spread over five years beginning 4/01/2010. This method is being applied prospectively, so gains and losses prior to 2010 will continue to be smoothed over four years until fully recognized.
Deposit After Plan Year Ends	The Actuarial Value of Assets includes contributions for that fiscal year they were intended even if they were made after the end of the fiscal year.
Annual Required Contribution	Normal cost plus 20-year amortization of unfunded actuarial accrued liability with interest to the end of the plan year
Retirement Age	Normal Retirement Age as defined in the Plan Provisions
Upcoming Year Salary Increase	The salary is increased based on a combination of the rates determined from the experience study for plan years 2006-2010 plus increases specific to each benefit plan. The additional increases are 3.00% at each age for Thrift plan members, 2.50% at each age for Police members, and 2.00% at each age for Defined Benefit Plan members. Total annual increases are shown below at sample ages:

Age	Increases		
	Thrift Plan	Police	DB Plan
20	9.72%	8.97%	6.60%
25	8.62%	7.88%	5.75%
30	7.88%	7.16%	5.18%
35	7.33%	6.62%	4.75%
40	6.86%	6.16%	4.39%
45	6.47%	5.77%	4.08%
50	6.14%	5.45%	3.83%
55	5.86%	5.17%	3.61%

Expenses	Deducted from the fund according to expenses in scales in Service Agreement. The Normal Cost includes an estimated expense charge.
Disability	1987 Commissioner's Group Disability Table, six month elimination period, male and female
Marriage	75% married; husbands are 3 years older than wives
Actuarial Cost Method	Entry Age Normal
Cost of Living Increase	No explicit increase is assumed for future years
Withdrawal	The rates below represent the service based withdrawal assumptions.

For employees with less than six year of service (excluding those in the Administrative and Union Defined Benefit Plans):

Service	Thrift & DB Plans	Police Plan
0	.120	.200
1	.110	.200
5	.080	.040
10	.040	.010
15	.035	.010
25	.025	.000

Retirees	Assets and liabilities for retirees whose benefits are not guaranteed by the Principal Insurance Company contract are included in the valuation.
-----------------	--

Description of Actuarial Cost Method: Entry Age Normal

Cost Methods

A cost method is a budgeting tool. It helps to ensure that your pension plan is adequately and systematically funded. Cost methods differ based on how they assign an annual cost to the current year and how they treat gains and losses.

Normal Cost

The portion of cost assigned to each year is called the normal cost. The normal cost may be shared by the employer and the employees based on plan provisions.

Entry Age Normal

The entry age normal cost method is used for valuation. This method estimates the total cost of all projected plan benefits based on the assumptions shown in this report and participant data you have supplied.

Costs are spread evenly from a member's date of hire to assumed retirement age. This annual cost spread as level percentage of compensation if benefits are salary related or as a level dollar amount if not salary related. The sum of each member's annual cost is the normal cost.

There are some accumulated costs for past years. The value of these past costs is the actuarial accrued liability (AAL). Each year the unfunded actuarial accrued liability (UAAL) is the AAL less the actuarial value of assets, but not less than zero. The UAAL is adjusted when there are plan or assumption changes (a liability base is created).

Actuarial Gains/Losses

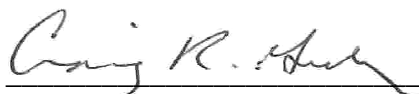

An actuarial gain or loss occurs when actuarial plan experience differs from what was assumed. The actuarial gain or loss is calculated separately but the total UAAL is amortized over 20 years each year in accordance with the City's funding policy.

Actuarial Certification

To the best of our knowledge, this report is complete and accurate and all costs and liabilities have been determined in conformance with generally accepted actuarial principles and on the basis of actuarial assumptions and methods which are reasonable (taking into account past experience under the Plan and reasonable expectations) and which in combination represent our best estimate of anticipated experience under the plan.

The results shown in this report are reasonable actuarial results. However, a different set of results could also be considered reasonable actuarial results. The reason for this is that actuarial standards of practice describe a "best-estimate range" for each assumption, rather than a single best-estimate value. Thus, reasonable results differing from those presented in this report could have been developed by selecting different points within the best-estimate ranges for various assumptions.

The actuary certifying to this valuation are members of the Society of Actuaries or other professional actuarial organizations, and meets the General Qualification Standards of the American Academy of Actuaries for purposes of issuing Statements of Actuarial Opinion.

A handwritten signature in black ink, reading "Craig R. Graby", is positioned above a horizontal line.

Hay Group
November 13, 2013

Estimated cost of 1% Cost of Living increase to current retirees

	07/01/2014 Valuation	07/01/2014 with 1% Cost of Living
Administrative and Union Group		
Accrued Liability		
Participants in pay status	\$31,125,323	\$31,436,577
Inactive participants	4,789,639	4,789,639
<u>Active participants</u>	<u>42,110,911</u>	<u>42,110,911</u>
Total	\$78,025,873	\$78,337,126
Change in Accrued Liability		\$311,253

Each 1% cost of living increase results in an additional \$ 311,253 of Accrued Liability for the Administrative and Union group.

	07/01/2014 Valuation	07/01/2014 with 1% Cost of Living
Police Group		
Accrued Liability		
Participants in pay status	\$3,352,440	\$3,385,965
Inactive participants	481,868	481,868
<u>Active participants</u>	<u>15,415,249</u>	<u>15,415,249</u>
Total	\$19,249,557	\$19,283,081
Change in Accrued Liability		\$33,524

Each 1% cost of living increase results in an additional \$33,524 of Accrued Liability for the Police group.

The above does not include the amount necessary to purchase a 1% cost of living increase for retirees at Hartford.
